### Four Boys are Missing in Chicago Area

boys were missing from homes in the Chicago area today, frightening their parents who remembered the unsolved slayings of three other boys a month ago.

But police believed that the boys may merely have got a little ad-venturous, and would show up at home with the expected drop in temperature accompanying a forecast cold wave.

The four have not been seen since about 3:30 p. m. CST Tuesday, when they left their homes in suburban Stickney. The office of Sheriff Joseph Lohman was notified, and was in charge of attempting to find them.

But the special city police detail investigating the month-old slaying of three boys, found mutilated in a forest preserve ditch two days after their deaths, had not been officially called into the latest disappearance. The Stickney boys were Stanley Mills, Philip Mas-coni, Robert Hale and William

More than 1,000 persons attended the last rites for Schuessler, who never recovered after the boys' naked, mutilated bodies were found in a forest preserve ditch Oct. 18.

### Czech Native Wins \$16,000 On TV Program

NEW YORK (U.P.) — A native of Czechoslovakia who became an expert in American history while studying for his citizenship examinations, won \$16,000 on a television program Tuesday night by answering questions about U. S. land pur-

Steven Frolich said he would like to use any money he wins on the CBS television program "The \$64,000 Question," to help bring displaced persons to this country. He was given the dates of five historic land purchases made by the United States and asked to

identify them

He correctly said the Louisiana Purchase was made from France in 1803, Florida was purchased from Spain in 1819, the Gadsden Purchase — of parts of New Mexi-co and Arizona — was from Mexico in 1853, Alaska from Russia in 1867 and the Virgin Islands from Den-

mark in 1917. Frolich, a 39-year-old seed salesman from Princeton, N. J., also correctly named each president at the time of each purchase although he was not asked to do so.

He returns next week to decide whether to keep the \$16,000 or try for \$32,000.

## How to be sure you are making the best buy in a new truck

A new truck is an important investment. If you want to be sure you're getting the best buy, you've got to consider a lot of things: price, power, operating economy, good appearance—to mention only a few.

Take price, for instance. Wouldn't it help you to know that you can buy a Dodge for surprisingly little money? Could be you didn't know Dodge trucks cost less than most other makes.

Wouldn't it help you, too, to get the whole picture on truck power? The fact that Dodge Power-Dome V-8's outpower every other leading truck in the low- and medium-tonnage fields surely is important to your decision.

And there are other Dodge advantages you'll want to think about—like the business-building beauty of Forward Look styling, and the long life that spreads low initial cost over years of dependable service.

It all adds up to this: To be sure of your best truck buy, take a few minutes to talk to your Dodge dealer. Just a phone call will put the wheels in motion.

DANVILLE, Ill. IP -A federal to focus attention on dairy progrand jury was ready today for an investigation of Illinois highway construction after being empaneled by Federal Judge Casper Platt.

The jury, which under the law may take up to 18 months for the investigation, will examine all phases of road building in the state, it was reported. The special state, it was reported. The special jury was sworn in Monday.
